

Non-Recurring Operational Referendum

The East Troy Board of Education seeks voter consideration of a non-recurring operational referendum that would provide the District with \$3 million in revenue, above the state-imposed limit, each year, for three years.

What will the Referendum Support?

Help Maintain Programming & Staffing

Help Provide Predictability & Stability to the District

What is the Challenge?

As annual state funding decreases and our cost to operate increases, the district has made \$10.2 million in budget balancing efforts over the last 16 years. Deficits are projected into the future; without local support through referendum funds, programs and services will necessarily be cut.

What is the Tax Impact?

If approved, the estimated school tax impact would be \$140 per year (\$11.67 per month) for each \$100,000 of equalized value.
