Independent Auditor's Report

To the School Board
East Troy Community School District
East Troy, Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the East Troy Community School District, Wisconsin as of and for the year ended June 30, 2015 and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the East Troy Community School District, Wisconsin as of June 30, 2015, and the respective changes in financial position and the respective budgetary comparison for the General Fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the East Troy Community School District, Wisconsin's basic financial statements. The combining nonmajor fund financial statements and the schedule of student activity funds are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards and schedule of state financial assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and the State of Wisconsin Single Audit Guidelines, and are also not a required part of the basic financial statements.

The combining nonmajor fund financial statements, the schedule of expenditures of federal awards, and the schedule of state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, the schedule of expenditures of federal awards, and the schedule of state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 22, 2015, on our consideration of the East Troy Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering East Troy Community School District's internal control over financial reporting and compliance.

EAST TROY COMMUNITY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The East Troy Community School District is organized as a common school district. The District, governed by a five member elected school board, operates grades K-12 and is comprised of all or parts of seven taxing districts. The District is not a component unit of another reporting entity nor does it have any component units.

The financial statements of the East Troy Community School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below:

This report includes all of the funds of the East Troy Community School District.

B. Government-wide and Fund Financial Statements

Government-wide statements

The Government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and user charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Funds are organized as major funds or non-major funds within the governmental and proprietary statements. The district reports the following major governmental and business-type funds:

Governmental Funds:

General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The District reports the following non-major governmental funds:

The *Special Education Fund* accounts for the activities of the district's special education instruction and transportation. The fund received a substantial portion of the inflows reported in the fund from various state and federal grants that are to be used for special education purposes.

The *Food Service Fund* accounts for the activities of the district's school lunch program. The fund has a substantial amount of inflows from sale of meals and federal grants.

EAST TROY COMMUNITY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

The *Special Revenue Fund* accounts for various gifts, donations, and other special revenue sources received by the district.

The *Community Service Fund* accounts for the activities of the district that are not elementary or secondary educational programs but have the primary function of serving the community.

Additionally, the district reports the following fiduciary fund types that are not included in the government-wide financial statements:

The *Private-Purpose Trust Funds* account for resources legally held in trust for student scholarships.

The *Agency Fund* accounts for assets held by the district as an agent for student organizations.

C. Measurement Focus and Basis of Accounting

Government-wide statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recognized as receivables and deferred revenues. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule the effect of interfund activity has been removed from the government-wide financial statements. Exceptions to this general rule are charges between the district's governmental and business-type funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund financial statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

State general and categorical aids and other entitlements are recognized as revenue at the time of receipt or earlier if the measurable and available criteria are met. Expenditure-driven programs currently reimbursable are recognized as revenue when the qualifying expenditures have been incurred. Aids received prior to meeting revenue recognition criteria are recorded as deferred inflows. Charges for services provided other educational agencies and private parties are recognized as revenue when services are provided. Charges for special educational services are not reduced by anticipated state special education aid settlements. All other revenue items are considered to be measurable and available only when cash is received by the district.

D. Assets, Liabilities, and Net Position or Equity

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes permit the District to invest available cash balances not immediately needed in any of the following:

- Time deposits in any credit union, bank, savings bank, trust company or savings and loan association if the deposits mature in no more than three years.
- Bonds or securities issued or guaranteed as to principal and interest by the federal government.
- Bonds or securities of any county, city, drainage district, technical college district, school district, town, or school district of the State of Wisconsin. Also included are bonds issued by a local exposition district, local professional baseball park district, local professional football stadium district, University of Wisconsin Hospitals and Clinic Authority, a local cultural arts district, and by the Wisconsin Aerospace Authority.
- The local government investment pool.
- Any security which matures within not more than seven years and having a rating which is the highest or second highest rating category of a nationally recognized rating agency.
- Securities of an open-end management investment company or investment trust subject to various conditions.
- Repurchase agreements subject to certain conditions.

The State Treasurer's Local Government Investment Pool is not registered with the Securities and Exchange Commission as an investment company. The Investment pool is managed by the State of Wisconsin Investment Board with oversight by a Board of Trustees as authorized in Wisconsin Statutes Chapter 25.

The District has not adopted a formal investment policy.

Investments are stated at fair value unless the difference between amortized costs and fair value are immaterial.

Receivables

The aggregate district property tax levy is apportioned and certified by November 6 of the current fiscal year for collection to comprising municipalities based upon the immediate past October 1 full or "equalized" taxable property values. As permitted by a collecting municipality's ordinance, taxes may be paid in full or two or more installments with the first installment payable the subsequent January 31 and a final payment no later than the following July 31. On or before January 15, and by the 20th of each subsequent month thereafter, the district is paid by the collecting municipalities its proportionate share of tax collections received through the last day of the preceding month. On or before August 20, the county treasurer makes full settlement to the district for any remaining balance.

Accounts receivable are recorded at gross amounts with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since such allowance would not be material

Inventories and Prepayments

All inventories are valued at cost using the first in/first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

EAST TROY COMMUNITY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

Capital Assets

Capital assets, which include land, buildings and improvements, and equipment are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Land is not depreciated. Depreciable capital assets of the District are depreciated using the straight line method over the following estimated useful lives:

<u>Assets:</u>	<u>Years</u>
Buildings and Improvements	7-45
Equipment	5-20

In the fund financial statements, governmental fund fixed assets are accounted for as capital outlay expenditures in the year purchased. No depreciation is recorded in the governmental fund financial statements. Fixed assets in the proprietary funds are accounted for the same way as in the government-wide statements.

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick leave benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. A liability for these amounts is reported in governmental funds only if they have matured.

Pensions

For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System Pension Plan and additions to/deductions from the Wisconsin Retirement System Pension Plan's fiduciary have been determined on the same basis as they are reported by the Wisconsin Retirement System Pension Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, if material, are deferred and amortized over the life of the bonds or notes using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Debt issuance costs are reported as debt service expenses in the year incurred.

In the fund statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

EAST TROY COMMUNITY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

Claims and Judgments

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. Claims and judgments that would normally be liquidated with expendable available financial resources are recorded during the year as expenditures in the governmental funds. If they are not to liquidated with expendable available financial resources, no liability is recognized in the governmental fund statements. The related expenditure is recognized when the liability is liquidated. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred. There were no significant claims or judgments at year-end.

Equity Classifications

Equity in the government-wide financial statements is reflected in three components:

- Net Investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by outstanding balances of any bonds, notes, land contracts, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted net position – consists of net position with restrictions placed on their use either by external groups or state and federal law.
- Unrestricted net position – All other net position that do not meet the definition of the other two.

The Fund Balance amounts will be reported in conformance with generally accepted accounting principles and shall be reclassified not less than at the end of each fiscal year. The District shall report fund balances as either Nonspendable, Restricted, Committed, Assigned, or Unassigned.

- Nonspendable Fund Balance – This includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The district shall report inventories, prepaid items, long-term receivables, and other amounts legally or contractually required to be maintained intact as nonspendable.
- Restricted Fund Balance – This includes amounts limited by external parties, laws or regulations, constitutional provisions or enabling legislation. The district shall report amounts as restricted that can be spent only for specific purposes stipulated by constitution, external source providers, or through legislation. The fund balance for the spendable portion in the debt service funds, capital projects fund, food service fund, community service fund, and employee trust fund shall be classified as restricted. When both restricted and unrestricted resources are available for use, it is district policy to use unrestricted resources first, then restricted resources as they are needed.
- Committed Fund Balance – This includes amounts that are committed for specific purposes by formal action of the Board. Such action shall be made in resolution form and require the approval of a majority of the school board. Commitments of fund balance, once made, can only be modified or eliminated by a subsequent resolution.
- Assigned Fund Balance – The Board of Education authorizes the District Administrator to assign fund balance. Assigned fund balance are intended to be used by the district for specific purposes but do not meet the criteria to be classified as restricted or committed.
- Unassigned Fund Balance – The fund balance is the residual classification for the district's General Fund and includes all spendable amounts not contained in other classifications. In other funds, the unassigned classification should be used only to report a deficit balance resulting from overspending for specific purposes for which amounts have been restricted, committed, or assigned.

Fund Balance of a special revenue fund, where donations and contributions received from an individual or organization, shall be committed for the specific purpose identified by the individual, organization, or district administration.

EAST TROY COMMUNITY SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

A budget for the General Fund was adopted on a basis consistent with generally accepted accounting principles. The budget was adopted in compliance with all material state statutes.

The legally adopted budget and budgetary expenditure control is exercised at the two digit sub-function level for the General Fund and the function level for all other funds. Reported budget amounts are as originally adopted or amended by school board resolution. Once the school board adopts the budget, no changes may be made in the amount of tax to be levied or in the amount of the various appropriations and the purposes of such appropriations unless authorized by a 2/3 vote of the entire school board.

Budgetary information as presented in the fund financial statements is derived from:

- A public hearing to obtain taxpayer comments on the proposed budget
- The annual operating budget as originally adopted by the school board.
- Individual amendments to the original budget as approved by the school board during the year.

Budget appropriations lapse at year-end unless specifically carried over to the next year.

B. Excess of Expenditures over Appropriations

For the year ended June 30, 2015, General Fund expenditures did not exceed budgeted amounts in any categories.

NOTE 3 – DETAILED NOTES ON ALL FUNDS

A - CASH AND INVESTMENTS

The district's deposits include checking accounts, money market accounts, and certificate's of deposit. The agency fund uses separate and distinct deposit accounts. All other funds share in common deposit accounts.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. As of June 30, 2015, \$3,693,803 of the government's bank balance of \$4,193,803 was exposed to custodial credit risk as follows:

Uninsured and Uncollateralized	\$	2,837,780
Total	\$	<u>2,837,780</u>

Differences between bank balance and book balance represent deposits in transit and outstanding checks.

During the year, the District's investments consisted entirely of amounts in the State Treasurer's Local Government Investment Pool and a Health Reimbursement Arrangement (HRA) account . The balance at June 30, 2015 was \$2,122,611.

Total cash and investments at June 30, 2015 consisted of the following:

Governmental Funds	\$	5,081,499
Agency Funds		229,973
Private Purpose Trust		148,919
Total Cash and Investments	\$	<u>5,460,391</u>

EAST TROY COMMUNITY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

Depository insurance is also provided by the State Deposit Guarantee Fund of the State of Wisconsin. The coverage is limited to \$400,000 above the applicable insurance provided by the FDIC. However, due to the relatively small size of the Guarantee Fund in relation to the total coverage, total recovery of losses may not be available. As a result, this coverage was not considered in computing the above amount.

B - CAPITAL ASSETS

Capital asset balances and activity for the year ended June 30, 2015 were as follows:

Governmental Activities:	Balance 7-1-2014	Additions	Removals	Balance 6-30-2015
Land	\$ 694,708	\$ 0	\$ 0	\$ 694,708
Land Improvements	1,348,676			1,348,676
Buildings	21,671,518			21,671,518
Equipment	3,057,752	194,133	154,925	3,096,961
Totals	<u>26,772,654</u>	<u>194,133</u>	<u>154,925</u>	<u>26,811,862</u>
Less: Accumulated Depreciation	13,283,511	641,139	154,925	13,769,725
Net	<u>\$ 13,489,143</u>	<u>\$ (447,006)</u>	<u>\$ 0</u>	<u>\$ 13,042,137</u>

Land is not depreciated. Depreciation expense was charged to the following governmental functions as follows:

Regular Instruction	\$ 5,314
Other Instruction	2,780
Libraries and Instructional Support	2,294
Operation and Maintenance	468,346
Pupil Transportation	138,257
Food Service	13,143
Other Support Services	11,005
Total Depreciation of Governmental Activities	<u>\$ 641,139</u>

C - LONG-TERM OBLIGATIONS

Long-Term obligations of the governmental activities of the district are as follows:

	Balance 7-1-2014	Additions	Reductions	Balance 6-30-2015	Amounts Due Within One Year
General Obligation Bonds	\$ 2,705,000	\$ 0	\$ 1,490,000	\$ 1,215,000	\$ 590,000
General Obligation Notes	541,283	0	112,798	428,485	116,916
Net Pension Obligation	(55,708)	24,335	12,865	(44,238)	0
Net OPEB Obligation	1,380,599	516,801	711,295	1,186,105	0
Totals	<u>\$ 4,571,174</u>	<u>\$ 541,136</u>	<u>\$ 2,326,958</u>	<u>\$ 2,785,352</u>	<u>\$ 706,916</u>

EAST TROY COMMUNITY SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 June 30, 2015

All general obligation debt is secured by the full faith and credit and unlimited taxing powers of the district.

General obligation debt at June 30, 2015 is comprised of the following individual issues:

Issue	Issue Dates	Interest Rates	Maturity Dates	Balances 6-30-2015
G.O. Bonds	07-01-2006	4.00-6.00%	03-01-2017	\$ 1,215,000
G.O. Note	12-19-2011	3.60%	09-19-2018	428,485
Total General Obligation Debt				<u>\$ 1,643,485</u>

The 2015 equalized valuation of the District as certified by the Wisconsin Department of Revenue is \$1,455,015,901. The legal debt limit and margin of indebtedness as of June 30, 2015 in accordance with Section 67.03(1)(b) of the Wisconsin Statutes follows:

Debt Limit (10% of \$1,455,015,901)	\$ 145,501,590
Deduct Long-Term Debt Applicable To Debt Margin	1,643,485
Margin of Indebtedness	<u>\$ 143,858,105</u>

Total interest paid during the year aggregated \$192,809 for long-term debt.

Aggregate cash flow requirements for the retirement of long-term principal and interest on June 30, 2015 follows:

Year Ended Year	Principal	Interest	Total
2015-16	\$ 706,916	\$ 105,079	\$ 811,995
2016-17	746,259	47,786	794,045
2017-18	125,726	5,819	131,545
2018-19	64,584	1,188	65,772
Totals	<u>\$ 1,643,485</u>	<u>\$ 159,872</u>	<u>\$ 1,803,357</u>

D – PARTIAL DEFEASANCE OF LONG-TERM DEBT

In 2011-12, the District defeased a portion of the General Obligation Bonds dated July 1, 2006. The District defeased \$310,000 of the \$1,070,000 principal payment due March 1, 2018. The District used cash on hand in the amount of \$417,166 and deposited the funds with an escrow agent to provide for all future debt service payments of the \$310,000 principal. As a result, the \$310,000 of the \$1,070,000 principal due March 1, 2018 is considered to be defeased and the liability for those bonds has been removed from the statement of net position.

The District defeased the debt to reduce its debt service payments over the next few years. The economic gain or loss was immaterial.

In 2013-14 the District defeased another portion of the General Obligation Bonds dated July 1, 2006. The District defeased \$360,000 of the \$950,000 principal payment due March 1, 2016, \$385,000 of the \$1,010,000 principal payment due March 1, 2017, and \$175,000 of the \$760,000 principal payment due March 1, 2018. The District used cash on hand in the amount of \$1,028,300 and deposited the funds with an escrow agent to provide for all future debt service payments of the defeased amounts listed above. As a result, \$920,000 of the remaining principal on the 2006 bonds is considered to be defeased and the liability for those bonds has been removed from the statement of net position.

EAST TROY COMMUNITY SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 June 30, 2015

The District defeased the debt to reduce its debt service payments over the next few years. The economic gain or loss was immaterial.

On April 28, 2015 the District defeased another portion of the General Obligation Bonds dated July 1, 2006. The District defeased \$585,000 of the \$760,000 principal payment due March 1, 2018. The District used cash on hand in the amount of \$665,294 and deposited the funds with an escrow agent to provide for all future debt service payments of the defeased amounts listed above. As a result, \$585,000 of the remaining principal on the 2006 bonds is considered to be defeased and the liability for those bonds has been removed from the statement of net position.

The District defeased the debt to reduce its debt service payments over the next few years. The economic gain or loss was immaterial

E – SUPPLEMENTAL PENSION PLAN (EARLY RETIREMENT BENEFIT)

Plan Description: The East Troy Community School District provides a defined contribution supplemental pension benefit to eligible administrators who retire early. An employee must have reached the age of 55 years and served in a regular full-time capacity as an administrator in the District for not less than ten years. To become eligible for early retirement, the employee must become 55 years of age on or before the first day of school of the following school year. The employees will be compensated at the rate of 20 to 50% of their last year’s salary based upon the age at retirement. Such compensation will be payable in installments over the next three years.

Funding Policy: Payments under the plan are made on a pay-as-you-go basis. There are no invested plan assets accumulated for payments of future benefits as of June 30, 2015. The general fund is used for funding all supplemental pension benefits.

Annual Pension Cost and Net Pension Obligation: The district’s annual pension cost and net pension obligation for the current year is:

<u>Component</u>	<u>Amount</u>
Annual required contribution	\$ 14,050
Interest on net pension obligation	(2,229)
Annual supplemental pension cost adjustment	12,514
Annual supplemental pension cost (expense)	24,335
Pension contributions made	12,865
Increase (Decrease) in net pension obligation	11,470
Net pension obligation – beginning of year	(55,708)
Net pension obligation – end of year	\$ <u>(44,238)</u>

The annual required contribution for the current year was determined as part of the July 1, 2014 actuarial valuation using the projected unit credit actuarial cost method. The actuarial assumptions included (a) 4.00% discount rate and (b) projected salary increases at 3.0%.

The actuarial methods and assumptions used include techniques that are designed to reduce the effect of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The unfunded actuarial accrued liability is being amortized as a 5 year open level percent method. The remaining amortization period at January 1, 2014 is 5 years. The unfunded accrued liability at July 1, 2014 was \$57,789.

EAST TROY COMMUNITY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

Trend Information: The district's annual pension cost, the percentage of the annual pension cost contributed to the plan, and the net pension obligation for 2014-15 and the preceding years were:

<u>Fiscal</u> <u>Year Ended</u>		<u>Annual</u> <u>Pension Cost</u>	<u>Percentage of</u> <u>Annual Pension</u> <u>Cost Contributed</u>		<u>Net Pension</u> <u>Obligation</u>
6-30-2009	\$	18,351	171.4%	\$	39,803
6-30-2010	\$	20,965	206.7%	\$	17,430
6-30-2011	\$	10,852	164.3%	\$	10,457
6-30-2012	\$	11,121	462.3%	\$	(29,833)
6-30-2013	\$	10,135	165.8%	\$	(36,505)
6-30-2014	\$	10,469	283.4%	\$	(55,708)
6-30-2015	\$	24,335	52.9%	\$	(44,238)

F – POST RETIREMENT HEALTHCARE BENEFITS

Plan description: The East Troy Community School District operates a single-employer retiree benefit plan that provides postemployment medical benefits to eligible employees and their spouses. There are approximately 26 active and 50 retired members in the plan. Benefits and eligibility for teachers and administrators are established and amended by the school board.

Teachers at least age 55 with a minimum of 15 years of service with the District as of June 30, 2013 are eligible. The district will pay the same percentage of the retiree's medical premiums as active employees. The maximum that will be paid by the district will be \$100,000. Payments will continue until the retired employee uses the entire \$100,000 or becomes Medicare eligible.

Administrators hired prior to 2005 at least age 55 with a minimum of 10 years of service with the District are eligible. The District will pay 100% of the monthly premium for the single or family medical insurance plan for a period of 10 years, or when the retiree reaches age 65, whichever should occur first. The District will also pay 100% of the retiree's life insurance premiums. This benefit will expire when the retiree reaches the age of 65.

Funding Policy: Payments under the plan are made on a pay-as-you-go basis. There are no invested plan assets accumulated for payments of future benefits as of June 30, 2015. The general fund is used for funding all post retirement healthcare benefits.

Annual OPEB Cost and Net OPEB Obligation: The district's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB #45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The following table reflects the components of the district's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the district's net OPEB obligation

<u>Component</u>		<u>Amount</u>
Annual required contribution (ARC)	\$	607,963
Interest on net OPEB obligation		55,224
ARC adjustment		(146,386)
Annual OPEB cost (expense)		516,801
OPEB contributions made		711,295
Increase (decrease) in net OPEB obligation		(194,494)
Net OPEB obligation – beginning of year		1,380,599
Net OPEB obligation – end of year	\$	<u>1,186,105</u>

6-30-2014	\$	504,297	139.86%	\$	1,380,599
6-30-2015	\$	516,801	137.63%	\$	1,186,105

Funding Status and Funding Progress: As of July 1, 2014, the most recent actuarial valuation date, the district's unfunded actuarial accrued liability (UAAL) was \$5,009,479, all of which was unfunded. The annual payroll for active employees covered by the plan for the 2014-15 fiscal year was \$9,123,153 for a ratio of the UAAL to covered payroll of 182.12%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future, such as assumptions about future terminations, mortality, and healthcare cost trends. Actuarially determined amounts are subject to continual revisions as actuarial results are compared with past experience and new estimates are made about the future. The schedule of funding progress, presented as required supplemental information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions: Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effect of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2014 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a rate of 4.0% to discount expected liabilities to the valuation date. The initial healthcare trend rate was 0.0% for medical for years 1 and 2, then 6.5% for year 3, then decreasing by .1% per year down to 5.0%. Mortality, disability, and retirement rates are from the Group Annuity Reserve Unisex Table 1994 projected to 2002 set forward 3 years for males and set back 3 years for females. The UAAL is being amortized as a level percentage of projected payrolls. The remaining amortization period at July 1, 2014 was 12 years.

EAST TROY COMMUNITY SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 June 30, 2015

H - DEFINED BENEFIT PENSION PLAN

Plan description. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

Vesting. For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits provided. Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants) are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions as required. The formula factor is a standard percentage based on employment category.

Employees may retire at age 55 (50 for protective occupation employees) and receive reduced benefits. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefits.

The WRS also provides death and disability benefits for employees.

Post-Retirement Adjustments. The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment	Variable Fund Adjustment
2005	2.6%	7%
2006	0.8	3
2007	3.0	10
2008	6.6	0
2009	(2.1)	(42)
2010	(1.3)	22
2011	(1.2)	11
2012	(7.0)	(7)
2013	(9.6)	9
2014	4.7	25

EAST TROY COMMUNITY SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 June 30, 2015

Contributions. Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement. During the reporting period, the WRS recognized \$629,838 in contributions from the employer.

Contribution rates as of June 30, 2015 are:

Employee Category	Employee	Employer
General (including teachers)	6.8%	6.8%
Executives & Elected Officials	7.7%	7.7%
Protective with Social Security	6.8%	9.5%
Protective without Social Security	6.8%	13.1%

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the East Troy Community School District reported a liability (asset) of \$1,614,781 for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2013 rolled forward to December 31, 2014. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The East Troy Community School District's proportion of the net pension liability (asset) was based on the East Troy Community School District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2014, the East Troy Community School District's proportion was .06574109%, which was a decrease of .0003634% from its proportion measured as of December 31, 2013.

For the year ended June 30, 2015, the East Troy Community School District recognized pension expense of \$603,689.

At June 30, 2015, the East Troy Community School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$234,093	\$0
Changes in assumptions	\$0	\$0
Net differences between projected and actual earnings on pension plan investments	\$781,955	\$0
Changes in proportion and differences between employer contributions and proportionate share of contributions	\$1,488	\$0
Employer contributions subsequent to the measurement date	\$384,204	\$0
Total	\$1,401,740	\$0

EAST TROY COMMUNITY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

\$384,204 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year ended June 30:	Deferred Outflow of Resources	Deferred Inflows of Resources
2015	\$200,129	\$0
2016	\$200,129	\$0
2017	\$200,129	\$0
2018	\$200,129	\$0
2019	\$200,129	\$0
Thereafter	\$16,891	\$0

Actuarial assumptions. The total pension liability in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2013
Measurement Date of Net Pension Liability (Asset)	December 31, 2014
Actuarial Cost Method:	Entry Age
Asset Valuation Method:	Fair Market Value
Long-Term Expected Rate of Return:	7.2%
Discount Rate:	7.2%
Salary Increases:	
Inflation	3.2%
Seniority/Merit	0.2% - 5.8%
Mortality:	Wisconsin 2012 Mortality Table
Post-retirement Adjustments*	2.1%

* No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2012 using experience from 2009 – 2011. The total pension liability for December 31, 2014 is based upon a roll-forward of the liability calculated from the December 31, 2013 actuarial valuation.

EAST TROY COMMUNITY SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 June 30, 2015

Long-term expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Long-Term Real Rate of Return	Target Allocation
US Equities	5.3%	21%
International Equities	5.7	23%
Fixed Income	1.7	36%
Inflation Sensitive Assets	2.3	20%
Real Estate	4.2	7%
Private Equity/Debt	6.9	7%
Multi-Asset	3.9	6%
Cash	0.9%	-20%

Single Discount rate. A single discount rate of 7.20% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long term bond rate of 3.56%. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the East Troy Community School District's proportionate share of the net pension liability (asset) to changes in the discount rate. The following presents the East Troy Community School District's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.20 percent, as well as what the East Troy Community School District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate:

	1% Decrease to Discount Rate (6.20%)	Current Discount Rate (7.20%)	1% Increase To Discount Rate (8.20%)
East Troy Community School District's proportionate share of the net pension liability (asset)	\$4,555,575	\$(1,614,781)	\$(6,487,879)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <http://legis.wisconsin.gov/lab/> and reference report number 15-11.

EAST TROY COMMUNITY SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 June 30, 2015

I - CONTINGENT LIABILITIES

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under the terms of the grants. Management believes such disallowances, if any, would be immaterial.

J - LIMITATION ON SCHOOL DISTRICT REVENUES

Wisconsin statutes limits the amount of revenues that school districts may derive from general school aids and property taxes unless a higher amount has been approved by referendum. The limitation does not apply to revenues needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- A resolution of the school board or by referendum prior to August 12, 1993.
- A referendum on or after August 12, 1993.

K – INTERFUND BALANCES AND TRANSFERS

There was an interfund transfer from the General Fund to the Special Education Special Revenue Fund in the amount of \$1,188,835. This was to cover the deficit in the special education fund.

L – RISK MANAGEMENT

The District is exposed to various risks of loss; theft or damage to, or destruction of district assets; errors and omissions; workers compensation; and health care for its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded the commercial insurance coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

M - SHORT-TERM NOTES PAYABLE

Short-term notes payable at June 30, 2015 totaled \$4,100,000. The notes were issued on October 20, 2014 for cash flow purposes and mature on October 30, 2015. The interest rate on the notes is 0.55 to .60%. Total interest expense on short-term notes for the year totaled \$22,408.

	Balance 7-1-2014	Additions	Reductions	Balance 6-30-2015
Short-term Notes	\$ 4,000,000	\$ 4,100,000	\$ 4,000,000	\$ 4,100,000

N – SUBSEQUENT EVENTS

Management of the District has evaluated all subsequent events for possible recognition or disclosure through the date of the financial statements. There have been no subsequent events that require recognition or disclosure other than the following:

In April, 2015 the District approved two referendums for the purpose of paying the cost of a school building and improvement program. The cost of the program totaled \$24,700,000 for the two referendums.

On July 2, 2015, the District borrowed a \$20,000,000 bond anticipation note with interest at 2.0% and a maturity of October 1, 2015 to pay for project costs of the school building and improvement program.

EAST TROY COMMUNITY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

On September 2, 2015, the District borrowed \$18,600,000 in General Obligation Refunding Bonds for the purpose of paying off the \$20,000,000 bond anticipation note. The District also received a bond premium of \$1,873,911. Interest rates of the refunding bonds are 3.0 to 5.0%. Principal payments are due from March 1, 2021 to March 1, 2035.

The remaining projects in the school building and improvement program will be funded by an additional borrowing during the 2015-16 school year.

O - PRIOR PERIOD ADJUSTMENT

The Statement of Activities Net Position at July 1, 2014 was adjusted for the effect of GASB 68. This adjustment of \$2,606,168 relates to District's share of the Net Assets of the Wisconsin Retirement System pension plan.

SINGLE AUDIT REPORTS

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Independent Auditor's Report

To The School Board
East Troy Community School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the East Troy Community School District as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the East Troy Community School District's basic financial statements, and have issued our report thereon dated October 22, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the East Troy Community School District's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the East Troy Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the East Troy Community School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs as items 15-1 and 15-2, that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether East Troy Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

East Troy Community School District's Response to Findings

East Troy Community School District's response to the findings identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. East Troy Community School District's responses were not subjected to our auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

JAMES R. FRECHETTE

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133
AND THE STATE SINGLE AUDIT GUIDELINES**

Independent Auditor's Report

To The School Board
East Troy Community School District

Report on Compliance for Each Major Federal and State Program

We have audited East Troy Community School District's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* and the *State Single Audit Guidelines*, issued by the Wisconsin Department of Administration (DOA) that could have a direct and material effect on each of East Troy Community School District's major federal and state programs for the year ended June 30, 2015. The East Troy Community School District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the East Troy Community School District's, major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration. Those standards, OMB Circular A-133, and the *State Single Audit Guidelines* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the type of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about East Troy Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of East Troy Community School District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the East Troy Community School District complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2015.

Report over Internal Control Over Compliance

Management of East Troy Community School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered East Troy Community School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal or state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with OMB Circular A-133 and the State Single Audit Guidelines, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of East Troy Community School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 15-3 that we consider to be a material weakness.

East Troy Community School District's response to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. East Troy Community School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133 and the State Single Audit Guidelines. Accordingly, this report is not suitable for any other purpose.

EAST TROY COMMUNITY SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL
AWARDS AND STATE FINANCIAL ASSISTANCE
For the Year Ended June 30, 2015

1 – Basis of Presentation

The accompanying schedule of expenditures of federal awards and state financial assistance includes the federal and state grant activity of the East Troy Community School District under programs of the federal and state government for the year ended June 30, 2015. The information in these schedules are presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the schedules present only a selected portion of the operations of the East Troy Community School District, it is not intended to and does not present the financial position, changes in net position or cash flows of the East Troy Community School District.

2 – Summary of Significant Accounting Policies

Expenditures reported on the schedule of expenditures of federal awards and state financial assistance are reported on the modified accrual basis of accounting. Such expenditures are recognized following the costs principles for non-profit organizations, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the schedules represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

3 – Comments on Various Grant Programs

The Commodities reported under CFDA # 10.555 was a non-cash transaction.

4. Medicaid Program (CFDA # 93.778) Payments

Medicaid revenues and expenditures reflect payments actually received by the district during the year.

5 – DPI Aidable Costs (Project 011)

Department of Public Instruction (DPI) aidable expenditures (Project 011) for the year ended June 30, 2015 were \$1,615,516.

6 – Single Audit Clusters

Child Nutrition Cluster – CFDA # 10.553, 10.555, and 10.556

Special Education Cluster – CFDA # 84.027 and 84.173

Section I – Summary of Auditor’s Results

STATE AWARDS

10. Identification of major state programs:

Name of State Program	State ID Number
Handicapped Pupils and School Age Parents	255.101
General Equalization Aids	255.201

Section II – Financial Statement Findings:

Finding Number	Finding
-------------------	---------

15-1 **Lack of Segregation of Duties**

Criteria: Auditing standards require us to review internal controls of the school district’s major accounting processes.

Condition: The available staff precludes a proper separation of functions to assure adequate internal control.

Cause: The school district has a limited number of employees.

Effect: The concentration of the duties and responsibilities in a limited number of employees is not desirable from a control point of view. The lack of adequate segregation of duties increases the possibility of improper/incorrect transactions.

Recommendation: Under these circumstances, the most effective controls lie in the school district board’s knowledge and monitoring of matters relating to the School Board’s operations.

School District Response: We concur with the finding, and management is aware of the situation related to lack of segregation of duties. To compensate for the lack of segregation of duties:

1. The Business Manager reviews the work of other business office employees including payroll and accounts payable as much as possible.
2. The Board of Education monthly reviews budget comparison reports and approves expenditures.
3. The District has re-evaluated job descriptions and has included cross-training amongst clerical positions in order to begin to provide back-up training and avoid isolation of positions without hiring more people in the business office due to revenue limit constraints.

15-2 **Financial Reporting**

Criteria: Auditing standards state that the school district should have internal control procedures that enable the preparation of financial records and financial statements by school district personnel that are free from material errors.

Condition: The East Troy Community School District has not presented financial records that are free from material errors and has not prepared the annual financial statements. Preparation of financial statements requires a very high level of technical experience and expertise.

Cause: The school district staff does not have the necessary resources to properly prepare the school district’s financial statements that are free from material errors.

EAST TROY COMMUNITY SCHOOL DISTRICT
 SCHEDULE OF FINDINGS AND QUESTIONED COSTS
 For the Year Ended June 30, 2015

Section II – Financial Statement Findings (Cont'd):

Finding Number	Finding
	<p>Effect: The school district's financial records were materially misstated. The auditor proposed and made audit entries that were material to the school district's financial statements for the 2014-15 audit and prepared the school district's financial statements.</p> <p>Recommendation: The school district may consider and implement additional internal control procedures to ensure the accuracy or preparation of its financial records and annual financial statements.</p> <p>School District Response: We concur with the finding and management is aware. Business staff does not have a CPA licensure. The process for reviewing and accepting East Troy's financial statements is as follows:</p> <ol style="list-style-type: none"> 1. The business manager reviews the ledger in detail during the fiscal year and at the close of the fiscal year, making any needed journal entries including receivables so that the financial statements are as complete and accurate as possible at the end of the fiscal year. The Business Manager also uploads the ledger to the DPI SAFR reporting shortly after the portal is open in July so that any remaining errors can be addressed prior to the auditor beginning the audit process, and so that the auditor uses the District's numbers to prepare the draft financial statements. The auditor has had less than 10 audit adjustments in each of the past two years, so basically the auditor is preparing the draft financial statements with district general ledger amounts, which we have already reviewed. 2. The auditor completes a draft version of the financial statements which the Business Manager reviews and approves for accuracy and questions any items that seem unusual. The auditor and business manager discuss any material changes required for the financial statements that year as required by any new GASB pronouncements. 3. Upon completion of the final version, the Business Manager presents the financial statements to the Board of Education for discussion and approval. (Note, approximately every five years in the process the auditor attends the board meeting to be available for presentation and questions from the Board of Education.

Section III – Federal and State Award Findings and Questioned Costs:

15-3	<p><u>Lack of Segregation of Duties</u></p> <p>Criteria: Auditing standards require us to review internal controls of the school district's major accounting processes.</p> <p>Condition: The available staff precludes a proper separation of functions to assure adequate internal control.</p> <p>Cause: The school district has a limited number of employees.</p> <p>Effect: The concentration of the duties and responsibilities in a limited number of employees is not desirable from a control point of view. The lack of adequate segregation of duties increases the possibility of improper/incorrect transactions.</p> <p>Recommendation: Under these circumstances, the most effective controls lie in the school district board's knowledge and monitoring of matters relating to the School Board's operations.</p> <p>School District Response: We concur with the finding, and management is aware of the situation related to lack of segregation of duties. See similar item under Financial Statement Findings for additional detail.</p>

EAST TROY COMMUNITY SCHOOL DISTRICT
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
For the Year Ended June 30, 2015

FINDING 14-3: LACK OF SEGREGATION OF DUTIES

Condition: This finding states that the District does not have adequate staff to provide a proper segregation of duties.

Current Status: The finding was repeated as finding 15-3 in the 2014-15 audit.
